Each American Funds Insurance Series Class 4 fund did not offer Class 4 shares prior to 12/14/2012. Hypothetical performance that predates the inception of each American Funds Insurance Series Class 4 fund in the separate account is computed by deducting the additional Class 4 total annual fund operating expenses and the Separate Account Annual Expenses from the performance of the Class 1 fund performance. The performance of the Class 4 funds will be lower than the Class 1 funds because of these higher fees and expenses.

Each BlackRock Class III fund did not offer Class III shares prior to the following dates: BlackRock Global Allocation V.I. Fund, 11/18/2003; BlackRock Total Return V.I. Fund, 8/14/2012. The BlackRock S&P 500 Index V.I. Fund did not offer Class II shares prior to 9/30/2004. Hypothetical performance that predates the inception of each BlackRock fund in the separate account is computed by deducting the additional Class II or III (as applicable) total annual fund operating expenses and the Separate Account Annual Expenses from the performance of the Class I fund performance. The performance of the Class II and Class III funds will be lower than the Class I funds because of these higher fees and expenses.

Each Franklin Class 4 fund did not offer Class 4 shares prior to 5/1/2008. Hypothetical performance that predates the inception of each Franklin Class 4 fund in the separate account is computed by deducting the additional Class 4 total annual fund operating expenses and the Separate Account Annual Expenses from the performance of the Class 1 fund performance. The performance of the Class 4 funds will be lower than the Class 1 funds because of these higher fees and expenses.
