Sub-Account Performance Summary as of September 30, 2024

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE AND DOES NOT GUARANTEE FUTURE RESULTS. Performance results include reinvestment of all distributions at net value. Current performance may be lower or higher than the performance data quoted.

This material is authorized for distribution only when accompanied or preceded by a prospectus for the annuity being offered. The prospectus contains investment objectives, risks, fees, charges, expenses, and other information regarding the variable annuity contract and the underlying investments, which should be considered carefully before investing. You should read the prospectus carefully before investing money.

**Non-Standardized Performance** is calculated monthly and reflects hypothetical performance of a \$1,000 investment from the inception date of the underlying fund (including periods predating inception in the separate account), adjusted to reflect the charges and expenses of the ForeRetirement Foundation Variable Annuity B-Share, including mortality & expense risk charge of 0.80%, administrative charge of 0.20%. Non-standardized performance does not reflect the impact of additional charges and fees your investment may be subject to, including an annual maintenance fee of \$50.00 (waived for account values of \$50,000.00 or more), contingent deferred sales charge which begins at 8.50% and declines over 7 years, and optional benefit charges. Your performance will be lower than that displayed if optional benefit riders are purchased. Please refer to the variable annuity product Prospectus or Product Guide for more information.
